

Twyn Primary School

Our Shine curriculum aims to Shape, Help, Inspire, Nurture and Engage young minds in lifelong learning.

Curriculum Statement

Our evolving SHINE curriculum is developing with our Twyn children at its heart. They contribute to the planning, activities and reflection of its development. Our SHINE curriculum places the four purposes as the key driver and connects to all six Areas of Learning and Experiences. We aim to encompass a wide range of opportunities to develop the cross-curricular skills of Literacy, Numeracy and Digital Competence. Teaching and Learning approaches are based on the 12 Pedagogical Principles and skill development through authentic learning opportunities. Each topic has a 'launch' event, then followed by a 'land' event at the end to showcase the learning that has taken place.
